

Exopolitics Briefing Document – Understanding the 7 layers of the UFO Phenomenon

Exopolitics is an emerging academic discipline aimed at understanding the political implications of the UFO phenomenon and its Non-Human Intelligence (NHI) components involving extraterrestrial visitors, Inner Earth civilizations, future humans, and higher or interdimensional beings. This two-page briefing is written for political representatives and officials who wish to gauge the importance of the UFO phenomenon given recent official releases by the US Dept of War, multiple US Congressional Hearings, and increased media attention placed on the testimonies of military whistleblowers. It will succinctly inform public officials of the true nature of ecopolitical situation confronting “surface humanity.” Informed citizens are encouraged to circulate this briefing to all public officials.

Level One – UFO Sightings

Sightings of physical craft and orbs associated with NHI date to antiquity and are found in reports by Roman historians such as Livy. Among the most significant of these ancient UFO sightings are the 16th century Basel, Switzerland and Nuremberg, Germany, UFO battles witnessed by thousands and depicted in newspaper reports. In 2026, the US Dept of War released five tranches of files revealing historical UFO sightings and official reports.

Level Two – UFO Crash Retrievals and Reverse Engineering

UFO crash retrieval operations have led to efforts to study and/or reverse engineer the advanced technologies by governments, militaries and corporations. The first documented UFO crash retrieval operation was in 1933 in Magenta, Italy, and found in official Fascist-era documents. Study of debris from the Magenta UFO crash was led by famed inventor Guglielmo Marconi, and culminated in Fascist Italy and Nazi Germany collaborating in the reverse engineering of flying saucer technologies, as first publicly revealed by the engineers Guiseppe Belluzzo (Italy) and Rudolf Schriever (West Germany) in 1950.

Level Three – Meetings and Agreements with NHI

There have been official meetings and agreements with NHI by political and military officials. One of the earliest involved President Truman and a surviving occupant of a crashed UFO at Aztec, New Mexico, in 1948, who was hosted for one year before his departure. The more well-known February 1954 meeting involved President Dwight D. Eisenhower secretly traveling to Edwards Air Force Base to meet with representatives of human-looking group of aliens (today called Nordics) and was followed in 1955 at Holloman AFB with a rival alien faction. Agreements reached with aliens involved technology sharing, human abductions and genetic experiments such as Project Preserve Destiny. The Majestic-12 Special Operations Group was set up to manage extraterrestrial affairs, but President Eisenhower

grew dissatisfied with its decisions and authorized the US Navy to set up its own program to monitor and counter MJ-12 activities if they threatened the American Republic.

Level Four – Deep Underground Military Bases (DUMBs)

DUMBs have been built to host captured/visiting NHI, study and reverse engineer their exotic propulsion technologies, conduct joint genetic experiments on human subjects, and research time travel and portal technology. Among the earliest DUMBs is the well-known Area 51/S-4 facility built in the late 1950s in Nevada, and the little-known Green Mountain DUMB, built in 1956-57 as a “Junior Pentagon,” which today hosts a large spaceport. The most infamous are the Montauk, Long Island, and Dulce, New Mexico bases, as epicenters for abusive human-extraterrestrial biological and time-travel experiments.

Level Five – Secret Space Programs (SSPs)

Reverse engineered spacecraft using exotic propulsion technologies are capable of superluminal travel and time travel. These are part of SSPs first developed in Antarctica/South America by a breakaway German nationalist group known as the Fourth Reich/Nachtwaffen, that was followed by the US, and later, other countries such as Russia, China, France, and Japan. Solar Warden was the original name given to the US Navy’s SSP.

Level Six – Controllers of UFO/NHI Information

The control hierarchy behind the UFO phenomenon involves an assortment of human elites belonging to ruling bloodline families, transnational corporations, and secret societies; Inner Earth civilizations; and extraterrestrial civilizations/organizations. The latter include the Galactic Federation, the Orion Collective, the Draconian Empire, the Andromeda Council, Mantids, Sirians, and the Arcturians. The Draconians have historically appointed from among the human elite a “Pindar,” to be their chief intermediary with national leaders.

Level Seven – Higher and Inter-dimensional entities

Higher and inter-dimensional entities do not need technology to be able to travel through space-time. Their advanced psychic abilities allow them to influence the consciousness of surface humans and many of the entities involved in levels 1-6. Level seven beings are referred to as gods, angels, Elohim, devas, demons, asuras, planetary spirits or solar beings (with multiple names in different religions). They compete in influencing humanity’s evolution and timelines. Their views on humanity range from us being a valuable resource to be exploited, to us being agents for positive transformative change in galactic conflicts.
